CT State Champions will be determined based on final Qualification scores. New England Outdoor Classic Champions will be determined based on head to head eliminations. Some Divisions and classes may be combined for elimination rounds only based on the number of archers in each. (For example: All Masters classes may be combined if there are only a few in each class.) There will be a NEOC Champion in every class whether you are combined with others or not based on your overall finish within your class and division.
